

Are you fed up, frustrated and sick and tired of working your butt off simply to make someone else rich? Unexcited about your job? Want to do something you love, make a difference in the lives of others, and earn what you're truly worth?

Free Report Reveals The Two Amazing Secrets To Quickly And Easily Earning \$1,000.00 A Day ...The Lazy Way

WHILE VIRTUALLY EVERYONE else is trying to work harder, reprogram their minds for success, discover the secret of creating their future, or get in on the latest make-money scheme, you're about to discover the crucial 'missing link' that the vast majority of these people have completely overlooked.

Hi, my name is Roberta Faddoul. And what I'm about to reveal in this revolutionary report (valued at \$37.00) has the potential to change your life dramatically.

Particularly if you've ever wanted to get out of the rat race and earn \$250 - \$500 per hour in a business where you can...

- Work from anywhere
- Start easily
- Start cheaply
- Enjoy huge profit margins
- And most importantly... gain the satisfaction of helping people who are desperate for your expertise

NEVER REVEALED BEFORE The shocking truth about why 75% of new businesses FAIL - and are almost impossible to make work.

According to the Franchise Business Directory Of Australia (20/06/06) only 25% of businesses are still in existence after their fifth year. Why? Because...

- They don't have a hungry market
- They have low margins
- Their marketing is terrible
- They have high overheads
- They tie up their cash-flow in stock
- They invest in a high stress 'heart attack waiting to happen' type business which eats away at their soul

...and as a result, most people look at these facts and say 'FORGET IT' - and end up working for peanuts in a job they don't enjoy for their entire life.

In truth, either way you look at it, it's a terrible situation. However, in this free report I'll reveal how you can...

FIRE YOUR BOSS In The Next 90 Days

Stay with me for a minute here. I know you're skeptical - who wouldn't be, with outrageous claims like this coming from every network marketing, NLP & hypnosis company advertising in these new age magazines.

This is different. What I'm telling you is the God's honest truth, and you need to hear about it because:

When your business appeals to a hungry market of over 3.5 million Australians (1 in 6) that are motivated to pay for your services...

When your business gives these same people the opportunity to increase their life expectancy by up to 14.5 years and save anywhere from \$5,000 to \$8,000 a year

When your business has a marketing system in place in order to get these same people to practically line up and beg you to take their money...

And when your business has virtually no competitors...

...is there any doubt it's going to be a winner? Of course not. Obviously, if you could show your customers a way to save \$15,000.00 a year and add 15 years to their life... guaranteed... for only \$250... they'd jump at it, wouldn't they? Of course they would - and you'd be earning \$1,000 a day just like some of our previous graduates...

I had to laugh when I made my first \$1,000 day because I had only done the bare minimum suggested by Roberta. Then I started to wonder what sort of money I could make if I really worked hard at this, every day! \$5,000 income per week would certainly surprise the skeptics around e, who watched as I spent large amounts of money over the years on course after course. But why be greedy? Now I have the time and money to enjoy life.

It is congruent with my vision to help people. The complete business plan has given me the knowledge and resources to have the confidence to start my business in saving lives. How exciting!!! I've made some great friends and look forward to continuing our relationship as professionals making more than \$1000 per day and absolutely loving it!

Anthony Callea, Kingsville, VIC 20/1/07

I've gotten my life back from the 9-5 6 day a week rat race. My first \$1000 day on Thursday 16/11/06 was the most incredible feeling. I spent the next week bouncing off the walls. Being a specialist has given me the opportunity to free myself through use of my time in a more positive way. Thank you!

Alysia Jenkins, Orange NSW 25/01/07
